21 April 1966

MEMORANDUM FOR: TALENT Control Officer/AFIC

SUBJECT: Release of LOP NOR Area Photographs

1. Representatives of OGD/DESS&T have indicated an operational interest in contacting an Air Force officer for the purpose of showing him photographs of the LOP NOR area and discussing with him certain terrain features.
2. Material available to OGD indicates that this officer, James T. Neal, Capt. USAF, Air Force Cambridge Research Laboratories, Hanscom Field, is a recognized expert in the OGD field of interest.
3. Checks by this Office indicate that Capt. Neal holds a Secret clearance with the Air Force, based upon appropriate National Agency checks. He holds, of course, no special clearances.
4. It is my understanding that high quality photographs of the LOP NOR area have been sensitized to a degree where they may be released at the Secret level. Your help in providing such photographs for this purpose would be greatly appreciated. I will be glad to arrange a meeting with the OGD representatives at your convenience.
